

## TODD RIVER RESOURCES POLICY

<b>Document Title</b>	Corporate Governance Policy
<b>Policy Number</b>	1.0
<b>Date of Issue</b>	31 January 2017

### 1.01 OBJECTIVES

The Company has adopted systems of control and accountability as the basis for the administration of corporate governance. Some of these policies and procedures are summarised in the corporate governance section of the Company's website.

Corporate governance is the system by which companies are directed and managed. It influences how the objectives of the company are achieved, how risk is monitored and assessed and how performance is optimised.

The Board and management are committed to corporate governance and, to the extent they are applicable to the Company and except as outlined in the Corporate Governance section of the Annual Report, have adopted the Eight Corporate Governance Principles and each of the Best Practice Recommendations as published by ASX Corporate Governance Council.

Whilst the Board has demonstrated, and continues to demonstrate, its commitment to best practice in corporate governance, it emphasises that good corporate governance is only one factor contributing to the success of the Company's operations.

### 1.02 APPLICATION

In this policy "Company" means Todd River Resources, as well as each other company within the Todd River Resources Group, i.e.: all companies defined as "related bodies corporate" of Todd River Resources under the Corporations Act 2001, as amended.

### 1.03 STATEMENT OF BOARD AND MANAGEMENT FUNCTIONS

#### a.) Board Charter

A Board Charter has been established dealing with:

- The role and responsibilities of the Board, Chairperson, Non-executive Directors, Managing Director and Company Secretary;
- Board composition and nomination; and
- Procedure for selection and appointment of new Directors.

#### b.) Materiality Threshold

The Board has agreed on the following guidelines for assessing the materiality of matters:

##### i.) Materiality (Quantitative)

Balance Sheet Items: Balance sheet items are material if they have a value of

more than 10% of pro-forma net assets.

Profit and Loss Items: Profit and loss items are material if they will have an impact on the current year operating result of 10% or more.

**ii.) Materiality (Qualitative)**

Items are also material if:

- They impact on the reputation of the Company;
- They involve a breach of legislation;
- They are outside the ordinary course of business;
- They could affect the Company's rights to its assets; and
- If accumulated they would trigger the quantitative tests.

**c.) Material Contracts**

Contracts will be considered material if:

- i. They are outside the ordinary course of business;
- ii. They contain exceptionally onerous provisions in the opinion of the Board;
- iii. They impact on income or distribution in excess of the quantitative tests;
- iv. There is a likelihood that either party will default and the default may trigger any of the qualitative tests;
- v. They are essential to the activities of the Company and cannot be replaced or cannot be replaced without an increase in cost of such a quantum as trigger any of the qualitative tests;
- vi. They contain or trigger change of control provisions;
- vii. They are between or for the benefit of related parties; or
- viii. They otherwise trigger the qualitative tests.

Any matter which falls within the above guidelines is a matter which triggers the materiality threshold ("Materiality Threshold").

**d.) Role and Responsibility of Management**

The role of management is to support the Managing Director and implement the running of the general operations and financial business of the Company, in accordance with the delegated authority of the Board.

Management is responsible for reporting all matters which fall within the Materiality Threshold at first instance to the Managing Director or if the matter concerns the Managing Director then directly to the chairperson or the lead independent director, as appropriate.

**e.) Relationship of Board with Management**

Management of the day-to-day business of the Company is to be conducted by or under

the supervision of the Board, and by those other officers and employees to whom the management function is properly delegated by the Board.

The Board will adopt appropriate structures and procedures to ensure that the Board functions independently of management. Appropriate procedures may involve the Board meeting on a regular basis without management present, or may involve expressly assigning the responsibility for administering the Board's relationship to management to a Committee of the Board.

Information is formally presented to the Board at Board meetings by way of Board reports and review of performance to date. When directors are providing information about opportunities for the Company, this should always be through the Board.

#### **f.) Access to information**

The Board should be provided with the information it needs to discharge its responsibilities effectively. Senior executives should supply the Board with information in a form and timeframe, and of a quality, that enables the Board to discharge its duties effectively. Directors are entitled to request additional information where they consider such information necessary to make informed decisions.

### **1.11 DIRECTOR CONFLICT OF INTEREST PROTOCOL**

This protocol sets out the procedures to be adopted in circumstances where a director has or where there is a real and sensible possibility that the director may have:

- a material personal interest in a matter that is being considered or will be considered at a meeting of the Board; or
- a conflict or perceived conflict between the duties which he or she may owe to a shareholder or another company of which he or she is a director or salaried executive and his or her duties as a director of the Company in considering a matter that is to be brought before a meeting of the Board.

This protocol has been adopted by the Board as governing the conduct of directors and is taken to be accepted by each director subsequently appointed to the Board as part of his or her consent to join the Board.

A director may, at any time, declare a conflict of interest in relation to a matter by notification to the Company Secretary in writing. In addition, the Managing Director, in consultation with any other director, may at any time determine a director to have a conflict of interest.

In circumstances where the Company Secretary has been notified of a conflict of interest by a director or where the Managing Director in consultation with another director has determined a director to have a conflict of interest, for so long as that conflict of interest remains:

- the director concerned will not receive Board (or Board committee) papers or other information which relates in any way to the declared or perceived matter which is the subject of the conflict of interest; and
- the director concerned will be requested to withdraw from any part of a Board (or Board committee) meeting for the duration of any discussion on that matter.

Where a director is not provided with information in accordance with the preceding paragraphs and is excluded from discussion, the Company Secretary will advise the director concerned in writing of the broad nature of the withheld information and why it has been withheld from him or her. In addition, for so long as the director has or is regarded as having a conflict of interest in respect to a matter, the Company Secretary will maintain a reporting

system by which the director is kept informed in general terms (and with sensitive information removed) as to the progress or status of the matter from which he or she has been excluded.

Where a director is provided with information that is not public knowledge (whether or not it relates to a matter then or subsequently declared or determined to represent a conflict of interest for that director), that information must be treated as confidential and may not be passed to a third party (including any shareholder in the Company) without the informed consent of the Board.

Once information withheld from a director in accordance with this protocol becomes public knowledge or if, in the opinion of the Managing Director, after consultation with another director, the potential for conflict has passed, the excluded director shall be entitled, should he or she request this, to a briefing by the Managing Director as to the current status of the matter and the particulars of any decision of the Board in respect of that matter.

Any director who is aggrieved at the application of this protocol may refer his or her complaint to the Board for the Board's review and ruling. The Board's decision will be final and binding in the matter.

The Company Secretary will maintain records of, and will keep the Board advised as to the status of:

- each director to whom this protocol has current application; and
- the administration of this protocol.

#### **1.12 PERFORMANCE EVALUATION OF THE BOARD, BOARD COMMITTEES, DIRECTORS AND EXECUTIVES**

The Board has adopted a self-evaluation process to measure its own performance and the performance of its committees during each financial year. Also, an annual review is undertaken in relation to the composition and skills mix of the Directors of the Company.

Arrangements put in place by the Board to monitor the performance of the Company's executives include:

- A review by the Board of the Company's financial performance; and
- Annual performance appraisal meetings incorporating analysis of key performance indicators with each individual.

Appropriate opportunities for the development and maintenance of relevant skills and knowledge needed to perform their respective roles as Directors or executives will be provided by the Company.

#### **1.13 REMUNERATION AND REMUNERATION COMMITTEE**

Due to the size and nature of the existing Board and the magnitude of the Company's operations the Company does not currently have a Remuneration Committee. The full Board carries out the duties that would ordinarily be assigned to a Remuneration Committee.

All of the Directors receive a separate Directors' fee, currently at a rate of between \$60,000 and \$80,000 per annum.

The Company has in place a number of incentive plans for director and employees, some of which are linked to performance. Details of the plans are included in the Remuneration Report. Participants in any equity plans are not permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk participating in the

plans.

Remuneration of Directors and key executives is competitively set with the assistance of externally prepared surveys and reports, taking into account the experience and qualifications of each individual.

The aggregate amount payable to the Company's Non-Executive Directors for undertaking their duties as Directors must not exceed the maximum annual amount approved by the Company's shareholders (currently \$500,000).
